PROFESSIONAL SUMMARY

Junior Software Engineer with hands-on experience building Python and Django web applications and REST APIs. Delivered 3+ projects covering full CRUD functionality, database design, and authentication, including a Django REST Framework API supporting 500+ records and endpoints tested for 50+ concurrent users. Skilled in Python, JavaScript, Django, Django REST Framework, MySQL, and Git/GitHub workflows. Comfortable working in Agile teams, participating in code reviews, and writing clean, testable, well-documented code. Seeking to grow as a backend/full-stack developer on a professional engineering team.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Django, Django REST Framework (DRF), React, Bootstrap

Databases: MySQL, Django ORM, SQL Query Optimization

Tools & Platforms: Git, GitHub, Postman, VS Code, REST APIs

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, CRUD Operations, Authentication & Authorization, Role-Based Access Control, Responsive Web Design, Agile/Scrum, Code Review

WORK EXPERIENCE

Junior Software Engineer | CCIT Institute

Jul 2026 – Present — Amravati, India

- Developed and maintained Python/Django web applications in collaboration with senior developers, implementing new features and resolving bugs in a live production codebase.
- Built and tested REST API endpoints using Django REST Framework (DRF), supporting 50+ concurrent users with reliable response times.
- Participated in code reviews and Git/GitHub version-control workflows, improving code quality, catching bugs pre-merge, and strengthening team collaboration.

PROJECTS

Student Management System — REST API | Personal Project

Jan 2025 – Feb 2025 — Amravati, India

Technologies: Django REST Framework, Python, MySQL

- Designed and developed a REST API to manage student records, enabling full CRUD operations for 500+ student entries.
- Implemented Django ORM for efficient database queries, reducing manual data-handling overhead.
- Built secure authentication and role-based access control to protect sensitive student data.

E-Commerce Web Application | Personal Project

Nov 2024 – Dec 2024 — Amravati, India

Technologies: Python, Django, MySQL, HTML, CSS, JavaScript, Bootstrap

- Developed a full-stack e-commerce platform with product listings, shopping cart, and checkout functionality.
- Implemented a responsive UI with Bootstrap and JavaScript, ensuring a consistent experience across desktop and mobile devices.
- Designed and integrated a MySQL database schema to manage product, user, and order data with full CRUD support.

Portfolio Website | Personal Project

Sep 2024 – Oct 2024 — Amravati, India

Technologies: Python, Django, SQL

- Built a dynamic, database-driven portfolio website using Django and SQL to showcase projects and skills.

EDUCATION

B.E., Computer Science and Engineering

CGPA: 8.06 / 10.00

Dr. Rajendra Gode Institute of Technology & Research, Amravati — Sant Gadge Baba Amravati University (SGBAU)
